Repair Quotations

We will advise repair costs upon investigation of the returned instrument, an investigation charge of £150 will be levied if the quotation is not taken up. Quotations are valid for 14 days. If we do not receive a Purchase Order to within the 14 days to complete any work quoted, equipment will be returned to the sender and we will invoice the investigation and shipping costs.

Re-Export of Repaired Instruments

It is our normal practice to return all equipment '*charges forward*'. This will include any importation charges, UK freight charges and any packaging charges on the repair invoice. These charges will be added to the quotation if known at time of quotation.

Please advise if you require return costs to be included in our repair quotation, or have any special shipping instructions or a preferred shipper and account details.
