

Complete customer satisfaction Sales, service and support

Wallace is a leading quality manufacturer of inspection and testing instruments that extend across the entire rubber and plastics supply chain.

Our products measure physical properties such as hardness, plasticity, viscosity, cure, compression and many other characteristics.

Our service

Wherever you are in the world our teams of experienced engineers are able to offer an unparalleled level of service and support across our product range.

Our goal is to ensure we provide the most appropriate solution to match your timescale and budget.

Our expertise

Pre-purchase - highly experienced staff to help you find the right products.

Installation and commissioning - ensure your investment is properly installed and commissioned to deliver optimum performance.

Training - make the most of your equipment by attending a training course at one of our training centres in Europe, USA or Asia - or on your own site.

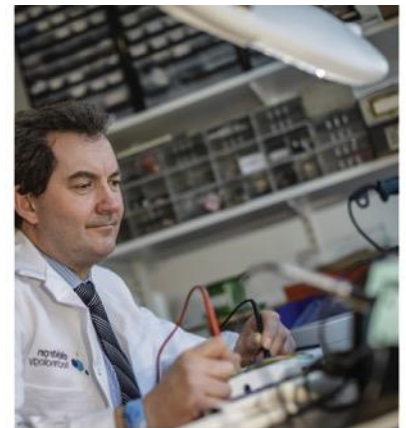

Calibration - ensure high quality, consistent performance at all times.

Repair - fast and cost effective repair.

Service contracts - regular maintenance to match your timescales and budget.

Spare parts - to ensure optimum performance, we recommend fitting our high quality factory authorised spare parts.

Rental - make sure you have the correct product for some one-off testing, or for cover if your unit is being repaired or calibrated.
